

Agency Priority Goal Action Plan

Financial Management: Complete yearly audits to move the Department towards achieving a Positive Audit Opinion readiness

Goal Leader:

David L. Norquist, Under Secretary of Defense (Comptroller)

Overview

Goal Statement:

- Continue annual audits and use the resulting recommendations as feedback on implemented corrective actions and other improvement opportunities towards a positive/clean/unmodified audit opinion for the entire DoD. By September 30, 2021, make demonstrable progress in closing prior year audit findings and increase the number of components with positive/clean/unmodified audit opinions.

Challenge:

- The major audit challenge faced by the Department range from lack of documentation, cultural changes (change of focus from just mission to improving financial management practices to drive proper accounting for resources) to major system impediments to include the use of legacy systems that lack the transactional details necessary to support the financial statement audit.
- Given our size and complexity, auditors may not be able to complete detailed testing on all critical assessable units in the first year. Consequently, Notice of Findings and Recommendations (NFRs) will continue to increase in the initial years. As we mature and remediate findings, we will be able to demonstrate progress by tracking/increasing the number of findings closed by the auditors yearly.

Opportunity

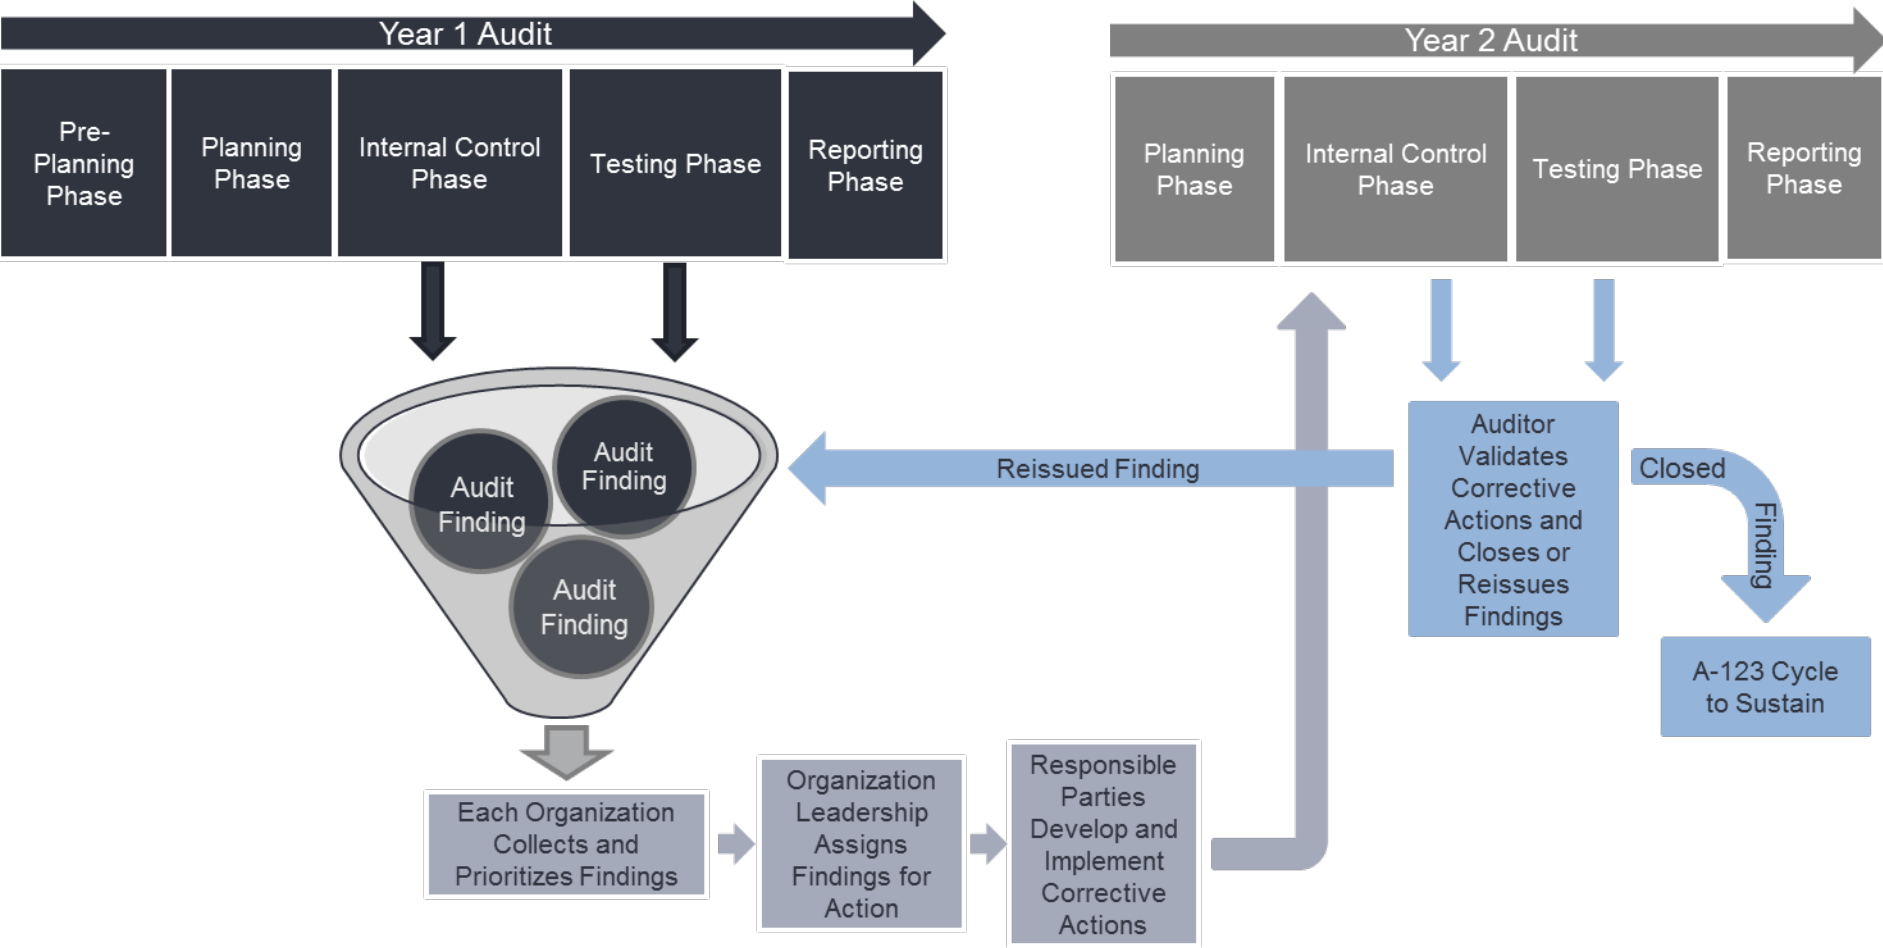

1. Better data quality for better decision making
 - The financial statement audit helps drive enterprise-wide improvements to standardize our business processes and improve the quality of our data which will lead to improved financial management and informed decision-making.
2. Transparency and accountability
 - Audit activities involve all DoD components and have a governance process that ultimately reports progress and status to the Deputy Secretary and the Secretary.
3. Cost savings to help drive reform
 - Audit NFRs will be used by cross-functional teams to support planning, development, and implementation of corrective action plans and reform initiatives that support the broader DoD reform agenda.
 - System investments in ERP systems will be reviewed to ensure that both Information Technology requirements and financial auditability requirements are addressed.
 - The financial statement audit is part of leadership's vision to bring business reform to the DoD, which directly aligns with one of the Department's three lines of effort in the National Defense Strategy.

Goal Structure & Strategies

Strategies on how the goal will be achieved:

- Audit opinions will be based on comprehensive auditor testing and will result in actionable feedback.
- The Department has established a tool and a process to capture, prioritize, assign responsibility for, and develop corrective actions to address audit findings.
- DoD established three functional councils to address specific audit challenges and monitor and report remediation progress: financial reporting; property, plant, and equipment; and information technology. These functional councils consists of leaders within the financial and functional communities that are responsible for making key decisions and driving changes within their respective areas in support of the audit and the National Defense Strategy.
- Progress briefings on findings and corrective action plans are provided to the Deputy Secretary and the Secretary on a recurring basis to ensure that findings are being addressed.
- Each year, auditors will assess and report on whether the Department has successfully addressed the findings.
- Going forward, DoD will measure and report progress toward achieving a positive audit opinion using the number of audit findings resolved through corrective action plans.

DoD Audit Feedback Cycle

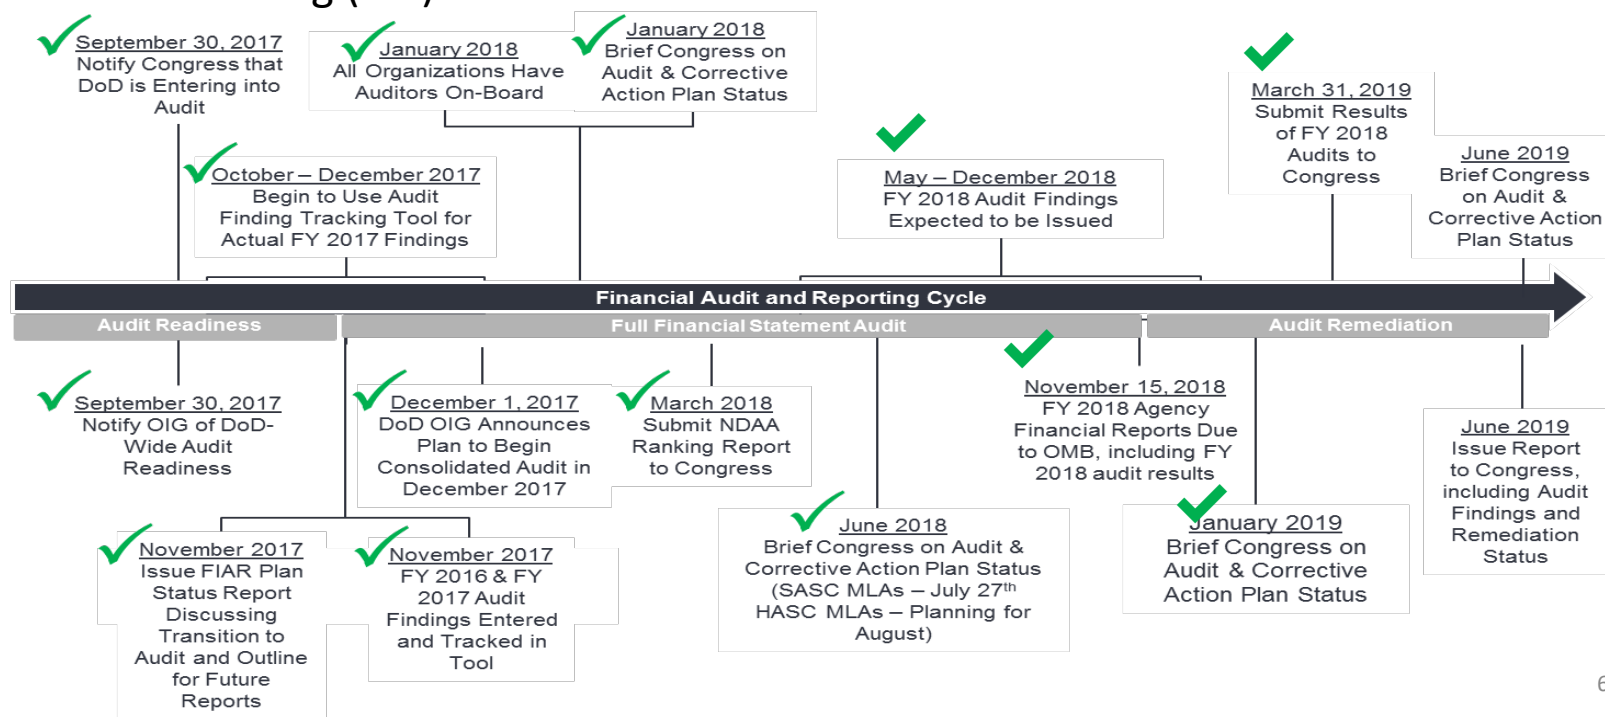

DoD has implemented an audit feedback cycle to respond to and maximize auditor feedback

Summary of Progress – FY 19 Q1 – Q2

DoD will provide regular updates on the status of the Fiscal Year 2019 audit and related remediation efforts to Congress and OMB

The DoD consolidated audit is likely to be the largest audit ever undertaken in the federal government and the United States:

- Comprises more than 24 stand-alone audits and an overarching consolidated audit as performed by the DoD Office of Inspector General (DOD OIG).
- DoD is currently sustaining clean opinions for nine stand-alone audits.
- All audits are now underway and being conducted by the DoD OIG and Independent Public Accounting (IPA) firms.
