

Department of State | Agency Priority Goal Action Plan Data Informed Diplomacy

Goal Leader:

Janice deGarmo, acting Chief Data Officer Deputy Director, Management Strategy & Solutions

Overview – Goal Statement

The U.S. Department of State aims to achieve <u>Data Informed Diplomacy</u> by...

Advancing an enterprise data and analytics capability that enables cross-functional continuous insights, timely and transparent reporting, and evidence-based decision making at the Department of State.

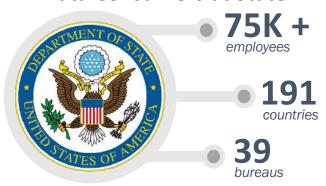

By Sept 2021, we will align and augment a data and analytics cadre that can harness data and apply cutting-edge analytics processes and products to foreign policy and operational challenges, and fulfill the requirements of the Federal Data Strategy to include building the first Department Data Strategy and enterprise Data Catalog.*

Overview – Challenges and Opportunities

CHALLENGES

Data consumers across the Department struggle to access trusted data in a timely manner to support decision-making

Data Consumers at State

Current Challenges:

Cultural Norms for Sharing Data:

Shifting culture to treat data as an enterprise asset

Fragmented and siloed data:

Removing data stovepipes so insights can be derived from disparate data sources

Data Security Risks:

Privacy and access to data is often considered late in the data sharing process

Technology Constraints:

Data technical architecture requires modernization

Data-related Talent:

Enhance training and development opportunities to build data capacity

OPPORTUNITIES

Improved data discovery, access, & governance will enable data driven decision-making

1. Data Discovery

The Department has the opportunity to provide a comprehensive data catalog, consistent data lexicon, and standardized data processes that help meet needs to find and discover data.

2. Data Access

The Department has the opportunity to improve the ability to access and utilize analytic tools and data to enable analysts to better leverage data and tools to deliver impact.

3. Data Governance

The Department has the opportunity to improve the quality, completeness, and accuracy of data to realize the full benefit of data analytics and other advanced decision-making tools.

4. Data-Informed Decision Making

By enhancing its data discovery, access, and governance capabilities, the Department has the opportunity to enhance the data acumen of its global workforce to drive more effective data-informed decision making at all levels.

5. Leverage steering bodies (EGB, ITEC, EDC)

Integrating enterprise steering committees together can help the alignment of shared goals and priorities.

Management Top Priorities

Talent

- "Be the employer of choice & care for

our people"

Security & Infrastructure

- "Protect our people& assets"
- Excellence & Innovation –

"Optimize & continuously improve the customer experience

Data & Analytics

"Enable datainformed decisionmaking"

Technology

- "Modernize with a mission-first, fieldfirst focus"

Goal Structure and Strategies

Goal: Advance an enterprise data and analytics capability that enables cross-functional continuous insights, timely and transparent reporting, and evidence-based decision making at the Department of State. By Sept 2021, align and augment a data and analytics cadre that can harness data and apply cutting-edge analytics processes and products to foreign policy and operational challenges, and fulfill the requirements of the Federal Data Strategy to include building the first Department Data Strategy and enterprise Data Catalog.

Enabling Strategies

Imbue Data-focused Culture with Talent

- ✓ Grow the development of data and analytics expertise through improved hiring and retention methodologies
- Promote a culture of data sharing and applied analytics for everyday decision making

Establish Data Governance

- Create an enterprise data strategy that identifies and prioritizes critical mission and business needs that require data management enhancements
- Formalize responsibilities, accountabilities, and enablement policies, standards, and processes to manage the data lifecycle starting with the data inventory and catalog

Increase Data Analytics

Capabilities

- ✓ Align data collaboration and analytics cells to increase data sharing and leverage cutting-edge analytics products
- Apply a range of
 visualization tools and
 techniques to improve
 reporting data insights to
 a broad audience base

Modernize Data Technology Infrastructure

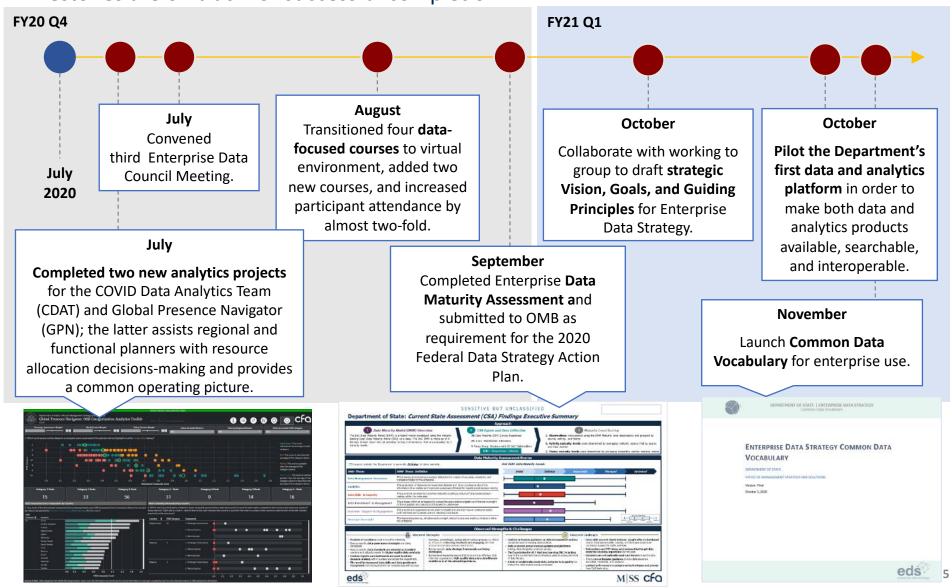

- Advance a flexible, scalable, cost effective data and analytics architecture that aligns with the enterprise IT overarching roadmap
- Establish a data hub that serves as the cornerstone for improving the quality and production of crosscutting data analytics

Key Indicators

- Increased percentage of official position descriptions that require data practitioner skillsets
- Increased training opportunities made available to build data skills throughout the workforce
- Increased number of critical data assets inventoried and cataloged for sharing across the Department
- Increased number of data liaisons for each Bureau
- Creation of the Department's Enterprise Data Strategy
- Increased use of data analytics products to enable mission and business decision-making
- Reduction in time to prepare, analyze, and report on recurring, cross-cutting business requirements
- Increased availability of data sets and analytical insights that enable the enterprise to make better use of data
- Increased availability of data technology tools that address business reporting and analysis needs

Summary of Progress – FY 2020 Q4

The Department met most milestones for its FY20 Q4 reporting period and all FY21 Q1 milestones are on track for successful completion.

Key Milestones, Indicators, & Metrics (1 of 2)

STRATEGY AREA	Milestone(s)	STATUS	KEY INDICATOR	Metric(s)	FY2 TAR (CUMU	GET		021 GET LATIVE)
	Incorporate data practitioner	Behind Schedule	Increased percentage of official position descriptions that require data	Percentage of employee data-related position descriptions created	Q1: N/A		Q1: 17%	
	skillsets in target % of position				Q2: 0		Q2: 18%	
0.0	descriptions by FY20 Q4 and by FY21 Q4				Q3: 8%		Q3: 19%	
	1121 Q4		practitioner skillsets		Q4: 15%		Q4: 20%	
IMBUE DATA-	Develop three new data literacy courses by FY20 Q4 and four additional by FY21 Q4	Ahead of	of in-ho	Number of available in-house data	Q1: N/A	Q2: 5	Q1: 9	Q2: 10
FOCUSED CULTURE WITH TALENT		Schedule	Increased training	practitioner courses	Q3: 6	Q4: 8	Q3: 11	Q4: 12
		Ahead of Schedule	opportunities made available to build data skills throughout the workforce	Number of participants completing in-house and partner-endorsed data analytics courses	Q1: N/A	Q2: 488	Q1: 1000	Q2: 1200
					Q3: 600	Q4: 800	Q3: 1400	Q4: 1600
		Ahead of	inventoried and	Number of key mission and business identified data sets enrolled in initial releases of data catalog	Q1: N/A		Q1: 11	
	Release initial data inventory and catalog by FY20 Q4				Q2: 4		Q2: 21	
	Release revised data inventory	Schedule			Q3: 9		Q3: 31	
+	and catalog by FY21 Q4				Q4: 11		Q4: 41	
ESTABLISH DATA GOVERNANCE	Data Liaisons Identified for each Bureau	Ahead of Schedule	Increased number of data liaisons for each Bureau	Number of data liaisons identified for each Bureau	Q1: N/A	Q2: 0	Q1: 15	Q2: 22
					Q3: 5	Q4: 7	Q3: 29	Q4: 37
	Complete Draft EDS by FY20 Q4	On Track	Creation of the Department's Enterprise Data Strategy	Completion percentage of the Department's Enterprise Data Strategy.	Q1: N/A	Q2: 0%	Q1: 65%	Q2: 80%
	Complete Final EDS by FY21 Q2	5dok			Q3: 40%	Q4: 50%	Q3: 90%	Q4: 100%

Key Milestones, Indicators, & Metrics (2 of 2)

STRATEGY AREA	MILESTONE(S)	STATUS	KEY INDICATOR	METRIC(S)	FY2020 Target (Cumulative)	FY2021 Target (Cumulative)
		Behind Schedule	Increased use of data analytics products to enable mission and business decision-making	Number of core programs applying data analytics products as reported by Bureau data liaisons	Q1: N/A	Q1: 15
					Q2: 0	Q2: 20
₹	Implement system				Q3: 4	Q3: 25
~	tracker of CfA project requests by customer Bureaus and Offices Creation of Data Analytics Cells within Bureaus or Offices				Q4: 10	Q4: 30
INCREASE DATA				Number of bureau	Q1: N/A	Q1: 15
ANALYTICS CAPABILITIES			Reduction in time to prepare, analyze, and report on recurring, crosscutting business requirements of enh managements	liaisons reporting on 25% or better	Q2: 0	Q2: 20
GAT ADIENTED		Behind Schedule		improvement in the time to meet business requirement reporting through the application of enhanced data management processes, tools, and techniques	Q3: 4	Q3: 25
					Q4: 10	Q4: 30
	Establish a data hub enabling enterprise access to data and analytical insights	On Track	Increased availability of data sets and analytical insights that enable the enterprise to make better use of data	Percentage increase in the number of data sets and analytical products available for enterprise use	Q1: N/A	Q1: 13%
					Q2: 5%	Q2: 16%
					Q3: 8%	Q3: 18%
MODERNIZE DATA TECHNOLOGY INFRASTRUCTURE					Q4: 10%	Q4: 20%
	Establish technology infrastructure that enables the creation of cross-cutting	On Track	Increased availability of data technology tools that address	Percentage increase in the number of data technology tools certified for enterprise-	Q1: N/A	Q1: 73%
					Q2: 60%	Q2: 76%
					Q3: 65%	Q3: 78%

INCREASE DATA ANALYTICS CAPABILITIES	Number of core programs applying data analytics products as reported by Bureau data liaisons	10	6	Department of State is continuing to identify bureaus and offices that have existing analytic capabilities.	Target Actual 30 25 20 15 10 5 0
	Number of bureau liaisons reporting on 25% or better improvement in the time to meet business requirement reporting through the application of enhanced data management processes, tools, and techniques	10	7	Department of State is continuing to identify bureaus and offices that have reported defined levels of data management maturity.	30 25 20 15 10 5
MODERNIZE DATA TECHNOLOGY INFRASTRUCTURE	Percentage increase in the number of data sets and analytical products available for enterprise use	10%	10%	Successfully launched analytical products and respective datasets for enterprise use.	20% 15% 10% 5% 0%
	Percentage increase in the number of data technology tools certified for enterprise-wide implementation	70%	70%	Successfully added two enterprise technology services.	80% 60% 40% 20% 0%

Data Accuracy and Reliability

Data Source	Accuracy	Reliability	Notes				
Enabling Strategy #1: Imbue Data-focused Culture with Talent							
Bureau LiaisonsGlobal Talent Management	Med	Med	Will improve with designated occupational series.				
Foreign Service Institute Course Catalog	High	Med	Proper tagging of data-related courses and improved capture of participant demographics will improve reliability				
Enabling Strategy #2: Establish Data Governance							
Enterprise Data Inventory	High	High	CfA provides baseline targets and quantification of data sets				
Enterprise Data Catalog	High	High	CfA provides baseline targets and quantification of data sets				
EDC Working Group	Med	Med	Project planning				
Enabling Strategy #3: Increase Data Analytics Capabilities							
EDC Working Group	Med	Med	Implementation Initiative underway				
Enabling Strategy #4: Modernize Data Technology Infrastructure							
Information Resource Management (IRM) Database	Med	Med	CfA- IRM and data users increased collaboration will improve level of accuracy and reliability				

The Department is currently improving its capture methodology for sharing high-quality datasets across the enterprise.
