Goal Leaders: Chairman Cheryl Mason and Brianne Ogilvie

Board
Cheryl Mason, Chairman, Board of Veterans’ Appeals
Deputy Goal Lead (Board): Freda Carmack, Special Counsel in the Office of the Chairman

VBA
Brianne Ogilvie, Acting Executive Director, Office of Administrative Review (OAR)
Deputy Goal Lead (VBA): Michael Edsall, Assistant Director (Operations) (OAR)
Overview

Goal Statement

• Provide claimants who disagree with VA’s decisions on claims and appeals with timely reviews under the new, streamlined process authorized by the Veterans Appeals Improvement and Modernization Act of 2017 (AMA). By September 30, 2021, VA will process and adjudicate Supplemental Claims and Higher-Level Reviews within 125 days on average, and Direct Docket Appeals within 365 days on average. VA will collect data throughout FYs 2020 and 2021 in order to establish average processing times for Evidence Docket and Hearing Docket appeals.

• Supplemental Claims and Higher-Level Reviews represent “Decision Reviews” in AMA. Decision Reviews are claims filed in disagreement with a previous decision.
  • Supplemental Claim: The claimant submits or identifies new and relevant evidence to support the claim. VA provides assistance in developing evidence.
  • Higher-Level Review: A more senior claims adjudicator reviews the prior decision and the closed record to determine if an error was made or if a different decision is warranted.

• An “appeal” is completed by a Veterans Law Judge at the Board of Veterans’ Appeals (Board) and an appellant may choose one of three appeal lanes:
  • Direct Docket: A Veterans Law Judge reviews the prior decision and the closed record to determine if an error was made or if a different decision is warranted.
  • Evidence Docket: The appellant has 90 days to submit additional evidence before a decision is rendered.
  • Hearing Docket: The appellant testifies before a Veterans Law Judge and may submit additional evidence up to 90 days following the hearing before a decision is rendered.
Overview

Challenge

• Collect data sufficient to establish reliable appeals processing times for the Evidence and Hearing Dockets.
• Complete Direct Docket Appeals in an average of 365 days.
• Complete Higher-Level Reviews and Supplemental Claims decisions in an average of 125 days.

Opportunity

• Improve VA’s claims and appeals process by providing claimants/appellants the option to choose a process that meets their needs while receiving a timely decision on their claim or appeal.
• Provide informed averages for appeals processing times for the Appeals Evidence and Hearing Dockets that both satisfy AMA’s promise to provide more timely final decisions and provide predictability for Veterans, their representatives, and internal and external stakeholders.
Leadership & Implementation Team – Decision Reviews (VBA)

Office of Administrative Review
Brianne Ogilvie, Acting Executive Director

Program Admin.
Responsible for regulations, surveys, policy, and procedures
Nina Tann, Asst. Director

Internal Controls & Compliance
Responsible for quality, training, and site visits at the Decision Review Operations Centers
Jennifer Williams, Asst. Director

Operations
Responsible for workload management and production oversight
Mike Edsall, Asst. Director

Decision Review Operations Center, Seattle
Responsible for AMA Higher-Level Reviews, Higher-Level Review Returns, Board remands, Board grants
Pritz Navaratnasingam, Director
Jennifer Williams, Asst. Director

Decision Review Operations Center, St. Petersburg
Responsible for AMA Higher-Level Reviews, Higher-Level Review Returns, Board remands, Board grants
Julie Boor, Director
Shelia Jackson, Manager

Regional Office Veterans Service Centers
Responsible for AMA Supplemental Claims

Office of Field Operations
Willie Clark, Deputy USB
Leadership & Implementation Team – Appeals (Board)

Chairman
- Executive Assistant
- Senior Advisor
- Stakeholder Liaison
- Strategic Engagement/Customer Experience

Vice Chairman
- Chief of Staff
- Chief, Budget & Internal Controls
- Special Counsel

Deputy Vice Chairman
- Appeals Adjudication
  - Quality Review
  - Litigation Support
  - Privacy Act & FOIA
- Administrative Support
  - Decision Management

Deputy Vice Chairman
- Appeals Adjudication
  - Veterans Law Judges
  - Attorneys
- Administrative Support
  - Hearing Management

Deputy Vice Chairman
- Appeals Adjudication
  - Veterans Law Judges
  - Attorneys
- Administrative Support
  - Case Inventory & VLJ Support

Deputy Vice Chairman
- Appeals Adjudication
  - Veterans Law Judges
  - Attorneys
- Administrative Support
  - Case Review and Mail Management

SES Executive Director, Appeals Support
- VACANT (1)

Director
- Appeals Support
  - Program Management & Logistics
  - Technical Infrastructure
  - Human Resources
  - Knowledge Management

Veterans Law Judges (VLJ)
Freedom of Information Act (FOIA)
Goal Structure & Strategies – Decision Reviews (VBA)

- Continue utilizing National Work Queue and a rules-based capacity model to distribute Higher-Level Reviews to the Seattle and St. Petersburg Decision Review Operations Centers

- Continue utilizing National Work Queue and a rules-based capacity model to distribute Supplemental Claims to the Regional Offices

- Implemented time-in-queue monthly targets for the Decision Review Operations Centers to ensure the timely processing of all Higher-Level Reviews

- Continue to monitor the Higher-Level Review and Supplemental Claim workload and actively seek out and then mitigate challenges and risks that could impact VBA’s ability to complete these reviews in an average of 125 days or less
- Collect and review data on Direct Docket appeals to monitor processing times and best ensure decisions are issued within an average of 365 days

- Collect appeals data throughout FY2020 and FY2021 and establish metrics to predict average case processing times for the Evidence and Hearing Dockets. Metrics may include receipt rates for cases on each docket, hearing scheduling rates, and average waiting time until dispatch

- Analyze the effect of decreasing legacy inventory on AMA appeals processing, to include pending legacy Remanded Appellate Decisions at VBA

- Monitor the effect of virtual tele-hearings and VEText technologies on the Board’s hearing rate

- Track by issue for both legacy appeals and AMA appeals
Summary of Progress – Decision Reviews (VBA) – FY2020, Q3

• Since the start of FY2020, VBA is meeting its 125-day timeliness goal for processing Higher-Level Reviews and Supplemental Claims

• VBA completed 38,824 Higher-Level Reviews with an average days to complete of 78 days

• VBA completed 184,354 Supplemental Claims with an average days to complete of 74 days

• VBA is on track to continue meeting the 125-day timeliness goal

• During Q3 VBA experienced higher than normal receipts indicating a possible change in Veteran filing behavior. VBA met that challenge by adjusting resource allocation and working with the DROCs to increase productivity. VBA continues to monitor average days to complete to adjust resources as needed to maintain timely processing

• NOTE: VA is currently meeting its FY2020 goals. However, this APG requires VBA to test the new goals for Higher Level Review and Supplemental Claims to ensure that they remain realistic over the long term. VA may achieve its goals when AMA is in its infancy, but this might change after the system matures (or VA may adjust its goals based on better-than-anticipated processing times).
• At the end of Q3, the Board is meeting its 365-day timeliness goal for processing Direct Docket appeals. The Board dispatched 10,076 Direct Docket appeals with an average days to complete of 215 days.

• Through the end of Q3, the Board dispatched 13,360 total AMA decisions, comprising 17 percent of the Board’s 79,073 total decisions. The Board will continue to track processing times for the Evidence and Hearing Dockets through FY2021 Q2 in order to establish reliable processing times for these additional lanes. At the end of Q3, the Board dispatched:
  • 2,542 Evidence Docket decisions with an average days to complete of 272 days
  • 742 Hearing Docket decisions with an average days to complete of 315 days

• After an initial increase in legacy appeals receipts from VBA as they work down their pending remand inventory, the proportion of AMA decisions will increase over time as legacy inventory is reduced.

• NOTE: VA is currently meeting its FY2020 goals. However, this APG requires the Board to set goals that have not historically existed (i.e., processing times for the Appeals Evidence and Hearing Dockets) and that are central to AMA which emphasizes more timely decisions. Based on current and projected productivity (decisions and intake), an integrated team at the Board is working on modeling timeliness projections for the AMA dockets.
COVID-19 Impact

• All in-person hearings (Travel Board, Video Conference and Central Office hearings) were suspended the week of March 15, 2020
  • Central Office hearings resumed July 13, 2020
• Hearing deferred = delayed decisions and payments and/or services to Veterans
• Over 20,300 scheduled hearings were impacted (2,100 have so far been converted to a virtual tele-hearing)

Mitigating Risk

• Moved to a virtual format (with support from the Office of Information and Technology (OIT))
• Extensive outreach to increase understanding of virtual tele-hearings
• Communicated with Veterans, VSOs and Representatives via phone calls, emails, VETexts, & online
  • Over 660 VSO/Representatives have attended virtual meetings with the Board regarding virtual tele-hearings
  • Launched Board-specific Twitter account on July 6, 2020
  • Information provided through Veterans Experience Office (VEO) weekly email announcements and on LinkedIn
• Hiring 1 re-employed annuitant VLJ who will solely focus on conducting AMA hearings

Supplemental Request

• Funding requested for VLJ (rehired annuitant) to focus on hearings
• Overtime for hearings, intake, and dispatch branches
### Key Milestones (VBA)

- VBA continues to monitor the Higher-Level Review and Supplemental Claim workload and actively seek out and then mitigate challenges and risks that could impact VBA’s ability to complete Higher-Level Reviews and Supplemental Claims in an average of 125 days or less.

</table>
Through the end of third quarter FY2020, AMA inventory was approximately at 94K. Higher-Level Reviews ("HLR") and Supplemental Claims ("Supplementals") remain well below the targeted average of 125 days.
On average, Direct Docket appeals are to be processed within one year from the appellant filing a Notice of Disagreement (P.L. 115-55). The Board continues to assess Evidence and Hearing Docket timeliness goals.

Through the end of the third quarter of FY2020, the Board dispatched 13,360 AMA cases, including 10,076 (75%) Direct Docket appeals, 2,542 (19%) Evidence Docket appeals and 742 (6%) Hearing Docket appeals.
Through the end of the third quarter of FY2020, the Board held 12,557 hearings.

Due to COVID-19, all in-person hearings (Travel Board, VSO and Central Office hearings) were suspended the week of March 15, 2020. Central Office hearings resumed July 13, 2020.
Note: Travel Board, VSO and Central Office hearings were suspended the week of March 15, 2020. Central Office hearings resumed July 13, 2020.

#### Key Indicators – Appeals (Board)

- FY2020 Plan: 24,300
- Held FYTD: 12,757
- Avg # of Hearings Held Weekly Post COVID-19: 115
- Remaining Weeks Till End of Year: 11
• Higher-Level Review and Supplemental Claim timeliness measures the average days to complete, calculated as the average number of days from the date the claim is filed to the date VBA completes the claim.

• Claims timeliness data is generated from VBA’s enterprise data warehouse, an accurate and reliable database that underlies all VBA data reporting.

• To better ensure VBA will continue meeting the average-days-to-complete target, VBA measures cycle-based time in queue at each processing office on a monthly basis.

• Average time in queue reflects the average number of business days the claim remains at a processing office.

• A monthly time in queue snapshot for each cycle (e.g., initial development, awaiting decision) occurs the morning following the last day of the month.

• Like average days to complete, VBA’s enterprise data warehouse is the source for time-in-queue data.
Data Accuracy and Reliability – Appeals (Board)

• The Board closely monitors legacy appeals receipts through its legacy reporting system (VACOLS) and AMA appeals receipts through Tableau

• The Board and VBA partner to monitor AMA election rates and deviance from projections to inform future evidence based estimates

• The Board also closely monitors pending legacy Remanded Appellate Decisions at VBA and VHA that remain under the Board’s jurisdiction pursuant to 38 U.S.C. § 7107

• After the majority of legacy appeals at the Board are completed, to include Remanded Appellate Decisions, the Board will be able to better project average days to complete for the 3 AMA dockets

• The Board is analyzing its workload capacity of legacy and Direct Docket inventory at the Board to adequately establish goals for average days to complete for the Evidence and Hearing Docket appeals
