Veterans Experience with VA.gov
FY 2020, Q3 Update

Goal Leader:  
Dr. Lynda Davis, Chief Veterans Experience Officer, Veterans Experience Office (VEO)

Deputy Goal Leaders:  
Laura Prietula, Acting Executive Director, Multi-Channel Technology, VEO  
Charles Worthington, Chief Technology Officer
Overview

Goal Statement
VA will measure and improve Veteran Experience with VA.gov using the government-wide drivers identified for measuring customer experience (CX) with the Federal Government. By September 30, 2021, Veterans Experience trust scores (% of respondents indicating a strong degree of trust) in VA.gov, will be at least 90%.

1OMB Circ. A-11, Section 280 identifies the government-wide drivers for measuring customer experience

Challenges
VA must incorporate Veteran Experience data in all business processes to drive performance improvements with VA.gov to increase Veterans’ trust in VA.

Opportunities
VA will deploy data science analytics based on near real time Veteran feedback:

• To detect trending concerns and predict emerging topics before they intensify.
• To ensure that Veteran Experience insights are actionable to improve VA.gov.
• To increase trust in VA.

As the co-goal lead for the President’s Management Agenda, Cross-Agency Priority Goal of improving the customer experience across government, VA will deploy data science analytics based on near real time Veteran feedback:

• To detect trending concerns and predict emerging topics before they intensify.
• To ensure that Veteran Experience insights are actionable to improve VA.gov.
• To increase trust in VA.

The VA’s priority goal supports this PMA initiative and helps drive customer experience improvements at the agency-level.
The Agency Priority Goal Implementation Team consists of an integrated, matrixed group led by VA’s Chief Veterans Experience Officer as Goal Lead and coordinated through VA’s Modernization Initiative Governance Structure, which includes a Digital Modernization Council.

**Office of Information Technology Management Team**

**Executive Sponsor:**
Charles Worthington, OIT

**VA partner(s):**
VHA, VBA, NCA, Board of Veterans’ Appeals, Office of Enterprise Integration, and other Staff Offices

**Veterans Experience Office Management Team**

**Executive Sponsor:**
Laura Prietula, VEO

**VA partner(s):**
VHA, VBA, NCA, Board of Veterans’ Appeals, Office of Enterprise Integration, and other Staff Offices
In FY 2020 and FY 2021, VA will leverage CX data analytics capabilities used by the private sector to detect trending conversations and predict emerging topics before they intensify in order to enhance the Veteran Experience and increase trust in VA.

VA is bringing private sector best practices to the Department by building CX and data analytics as core competencies, and initial goals in FY 2020 and FY 2021 will be to monitor, track, and analyze overall Veteran experience in VA.gov, which is comprised of 7 elements in accordance with OMB’s A-11 Circular: (1) Satisfaction; (2) Confidence/Trust; (3) Effectiveness/Quality; (4) Ease/Simplicity; (5) Efficiency/Speed; (6) Equity/Transparency; and (7) Employee Helpfulness.

**Strategy 1:** Deploy survey capability for leadership and employees to see trending compliments, concerns, and recommendations on emerging topics regarding VA.gov (i.e., health care services, benefits services, memorial services, etc.) before they intensify.

**Strategy 2:** Collect data on the Veteran Experience to enhance access and navigation on VA.gov for improvements and decision-making.

**Key External Factors Impacting Goal Achievement:** VA must engage Veterans, their families, caregivers, and survivors and demonstrate responsiveness to their concerns by institutionalizing the voice of the Veteran across business lines to drive performance improvements and increase trust in VA, including online at VA.gov.

**Proposed Mitigation Actions:** VA will engage Veterans, their families, caregivers and survivors through key initiatives to drive performance improvement based on CX data and monitor impact of initiatives based on Veteran Experience drivers, including trust, ease, effectiveness, and emotion.
Summary of Progress – FY 2020 Q3

• The VA-Wide Trust Survey, first deployed in FY 2016 Quarter 2 with an initial Trust percentage of 55%, has experienced a net increase of 40% in Trust % as per the most recent data (FY 20 Quarter 3: Trust % of 77%).

• VEO will deploy a real-time CX survey to customers using VA.gov, which enables VA to monitor Veteran feedback about their VA.gov experiences.

• VEO launched two customer experience VHA surveys: Emergency Medicine (launched June 26, 2020) and No Show (a survey aimed at identifying the dynamics associated with Veterans not showing up to appointments), launched June 30, 2020.

• VEO and CTO office designed survey questions to map to OMB Circular No. A-11 drivers. The survey has 14 questions and was submitted for OMB approval on August 4, 2020.
In order to achieve VA’s goal of increasing Veteran trust in VA to 90% by FY 2021, VA established strategic milestones to improve VA.gov by obtaining Veteran feedback with their experiences with the website.

Key Indicators for VA-wide Trust

- Factors that contribute to and impact a Veteran’s overall perception of trust in VA include ease, effectiveness, and emotion, in addition to other CX drivers captured in OMB’s A-11 Circular.

- VA analyzes what Veterans are saying about their navigation and access experience through VA.gov, and the levels of ease, effectiveness, and emotion are anticipated to drive increases in VA.gov trust.

VA.gov Survey: Historical Trust Scores

VA Trust

FY16 Q2 FY16 Q3 FY16 Q4 FY17 Q1 FY17 Q2 FY17 Q3 FY17 Q4 FY18 Q1 FY18 Q2 FY18 Q3 FY18 Q4 FY19 Q1 FY19 Q2 FY19 Q3 FY19 Q4 FY20 Q1 FY20 Q2

VA-Wide Trust Target Score

90%
BLUF: Since the inception of the VA-Wide Trust Survey in FY16 Q2, Veteran Trust, Effectiveness, Ease, and Emotion have all risen. Between FY20 Q2 and FY20 Q3, Trust decreased 3% from 80% to 77%, Effectiveness decreased 4% from 78% to 74%, Ease decreased 5% from 75% to 70%, and Emotion decreased 4% from 77% to 73%.
Data Accuracy and Reliability

VA.gov Survey Methodology*:  
• Number of Respondents:  
• Survey Pool:  
• Mode of Administration:  
• Sampling Approach:  
• Frequency of Response:  

*When the milestones for the survey are finalized, we will elaborate on the data accuracy and reliability unique to this survey.
Contributing Programs

VA Organizations:
- **Office of Information & Technology (OIT):** Operates VA.gov and the CX survey software platform.
- **Office of Enterprise Integration (OEI):** Key integrator of VA-wide initiatives by managing VA governance, VA-wide performance metrics, and VA’s open data effort.
- **Office of Public & Intergovernmental Affairs (OPIA):** Key coordination partner to integrate social media listening capability.
- **Veterans Health Administration (VHA):** Key partner to seamlessly refer Veterans in crisis (i.e., suicide, homelessness) to appropriate action groups.

Regulations:
- In accordance with the Paperwork Reduction Act, VEO gains OMB approval for survey deployment, which includes non-bias response phone surveys.
